Welcome to Our Office

Outline of Initial Visit for New Patients

After you complete a New Patient Health Questionnaire, you will be escorted to an initial consultation with the doctor to discuss your health concerns. There is no fee for the initial consultation, however if you do wish to go ahead with a chiropractic examination the fee will be \$80.00. X-rays may be required to visualize the seriousness and the location of spinal problems. If you require x-rays we will send you to an x-ray facility, please take along your Health Card. OHIP covers the cost of the x-rays. There is a \$20 fee for the interpretation of the x-rays. Your "Initial Visit" will usually not include a spinal adjustment/manipulation until the doctor is able to assess your examination and/or x-ray results.

Once your initial examination has been completed, you will be advised on a time in which you can return for your "Report of Findings". At this time the doctor will review your examination and x-ray results and whether or not your case has been accepted. If accepted, your recommended treatment program will be explained to you. Your chiropractic care will begin at this time and continue as scheduled until your condition has been fully corrected, or until maximum possible improvement has been obtained. You will also be advised concerning financial arrangements.

Examination Visit Fee	\$80.00
X-Ray Interpretation Fee	\$20.00
